

PROJECT MANAGEMENT OFFICE (PMO) SERVICES

Advanced strategy, collaboration and project management expertise to define, align and deliver optimal project results

PROJECT MANAGEMENT OFFICE (PMO) SERVICES

PROJECT MANAGEMENT OFFICE (PMO) EXPERTISE

Celery's Project Management Office (PMO) services provide clients with standardized frameworks, guidance and strategy to align projects with corporate goals and optimize project and program results. As a leader in PMO services, Celery's PMO team brings a commitment to excellence, adaptability to change and a passion for ensuring projects / programs produce optimal outcomes.

Driven via precision communication, open collaboration and acute attention to quality, Celery PMO services ensure client expectations are aligned with projects and programs as initiatives evolve.

PMO CONSULTING & STRATEGY

Celery's PMO experts provide clients with advance strategic guidance before, during and after projects to ensure quality, consistency and results are maximized. Whether assisting on smaller, agile projects or tackling more complex, enterprise-wide initiatives, Celery PMO services integrate people, processes, technology and data to ensure projects and programs are optimized.

DATA ADHERENCE

Celery Data Adherence services include disciplined and consistent application of data governance principles and standards to ensure data is accurately collected, processed, stored and utilized within established guidelines. Data Adherence ensures data is traceable, verifiable and complete, fostering reliability, accuracy and compliance across the data lifecycle.

TASK MANAGEMENT

Celery Task Management services focus on creating systematic organization, tracking and execution of activities within a project or workflow. It includes creating a work breakdown structure, assigning responsibilities, setting deadlines and monitoring progress to ensure that tasks are completed efficiently and on schedule.

TALENT AND STAFFING SERVICES

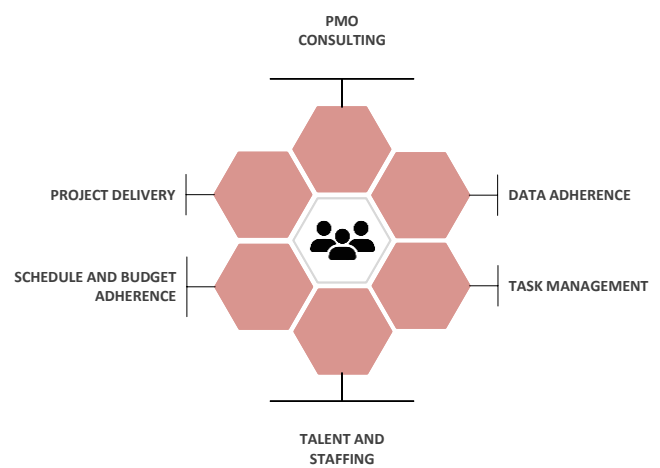

Celery Talent and Staffing services assist organizations in identifying, recruiting, acquiring and managing personnel. This includes sourcing, screening and placing candidates in positions that match client skills and qualifications requirements to help businesses build and maintain a skilled and effective workforce.

SCHEDULE AND BUDGET ADHERENCE

Celery Schedule and Budget Adherence services pertain to the disciplined management of establishing timelines and financial constraints within a project, program or organizational initiative. It involves closely monitoring and managing the project schedule and budget to ensure activities are completed on time and in scope with the allocated financial resources.

PROJECT DELIVERY

Celery Project Delivery services include the successful completion and implementation of a project according to predefined objectives, timelines and quality standards. It encompasses the entire lifecycle of a project, from initiation to planning, execution, monitoring and controlling and closure to ensure project expectations are aligned with timelines and budgets.

WHY CELERY?

Celery PMO Services help clients optimize small to large scale projects and programs via a potent blend of communication, collaboration and grit to make things happen.

- Advanced strategic thinking and planning
- Collaborative communication between parties
- Extensive complex project experience and results
- Precision data management acumen
- Responsive, agile processes to meet deadlines

ABOUT CELERY

Celery is an agile risk optimization company that helps public utility organizations convert complex data into clear, actionable intelligence to mitigate risk, optimize assets and maximize project results.

Blending extensive client experience with deep vendor-side acumen, Celery energy engineers orchestrate precision data analysis, strategic consulting and project management services to solve complex energy challenges via acute listening, proactive thinking and relentless grit.

Based in Walnut Creek, CA with remote offices nationwide, Celery energy engineers perform a critical, leadership role as strategic liaison between data, assets and the teams that make projects happen in the field.
