CELERITY
WE EMPOWER POWER™

Clear Path
Utility Solutions, LLC
INNOVATION FOR TOMORROW

Celerity and Clear Path Utility Solutions deliver end-to-end consulting, analytics, and field services that support utility programs from data readiness and planning through field execution, verification, and regulatory compliance. Together, we help utilities manage risk, strengthen reliability, and meet evolving regulatory and insurer expectations.

CELERITY

CELERITY transforms complex utility data into clear, actionable intelligence through data quality management, data integration, and program enablement services that improve visibility, strengthen decision making, and support risk informed planning and execution.

CLEAR PATH UTILITY SOLUTIONS

CLEAR PATH UTILITY SOLUTIONS, a Celerity company, provides insured, independent, boots on the ground field expertise, vegetation management, QA, construction oversight, and Risk Compliance Audits to ensure the work performed in the field meets documented standards, regulatory requirements, and audit expectations.

TOGETHER, WE ENABLE UTILITIES TO OPERATE WITH GREATER CONFIDENCE, RESILIENCE, AND EFFICIENCY, PROTECTING ASSETS, PEOPLE, AND THE COMMUNITIES THEY SERVE.

one team. one mission.
we empower power.

CELERITY | data + intelligence

Business Integration
Bridges IT and Operations during ERP and system transitions.

GIS & Visualization
Transforms field and asset data into actionable geospatial intelligence.

Data Quality Management (DQM)
Identifies, reconciles, standardizes, and validates operational data, transforming disparate datasets into reliable, compliant information.

Wildfire Mitigation & Risk Analytics
Integrates third-party wildfire risk modeling with utility asset records, GIS, and field knowledge to translate risk outputs into defensible mitigation strategies and WMP deliverables.

Aerial Inspection Support
Supports utility inspection programs through scalable aerial data collection and analysis, enabling efficient identification of risk, access constraints, and field conditions across large service territories.

CLEAR PATH UTILITY SOLUTIONS | field execution + compliance

Risk Compliance Audits (RCA)
Statistically valid, independent audits that enhance reliability and support regulator, insurer, and executive confidence.

Vegetation Management, QA
Ensures quality, safety, and compliance across utility vegetation programs.

Construction Management
Oversees T&D projects for cost efficiency, safety, and quality control.

Emergency Response
Rapid deployment of ICS trained teams for wildfire, storm, and utility scale event recovery.

Verification & Inspection
Validates field data accuracy to improve reporting, audit readiness, and operational transparency.

data. field. results.
we empower power.
